

CENTER OF ACTIVITY IN MEXICO

Agua Prieta, before which today's fighting occurred, is practically a continuation of the Arizona town of Douglas. The federalists attempted to attack along the international boundary line, so that their fire would not cross into the United States, but were repulsed by a flank movement of rebels to attack from the south.

Red Cross work, and about a hundred volunteers were held on this side to care for the wounded. A train on the Naco road was made ready, and a number of automobiles were run to the line in preparation to search out and assist the wounded. The first string of wagons and automobiles started for the front to gather the wounded at 8:45 o'clock.

Newspaper Man Shot.

Oscar K. Goll, who accompanied the Associated Press correspondent, was struck by a bullet on the side of the head, while he was watching the progress of the fight from 4th street. A long slash was cut in his scalp and blood streamed over his face. He was not seriously wounded.

Goll was the first American struck on this side of the line in today's fighting. He is a newspaper man, employed in Tombstone, and was formerly immigration commissioner of Cochiz county, Ariz. He was treated at the Red Cross Hospital.

The Associated Press correspondent crossed the line and found "Red Lopez" on the other side of the line. Lopez, a full of years, chief of the command, the garrison of the town. All of Lopez's men had been engaged since the early fighting began.

Said Lopez: "We concentrated our fire of sharpshooters on the two machine guns that the federalists brought into action and succeeded in putting them out of business. The loss of life is undoubtedly heavy. At about four I heard the federalists firing. As fast as the government troops were thrown into the draw immediately south of Agua Prieta, the fire of our troops moved them down. Our men are holding every position taken by them so far, and the rebels are being driven back. The federal army, which attempted to swing around toward the American border, we expect Juan Cabral to arrive at any moment and reinforce us. But we are going to hold Agua Prieta, any way."

Action Is Renewed.

By this time firing had been renewed. The rebels in the trenches along the American line were engaged, and the American party in the automobile was compelled to retreat. The federal troops paid no attention to the warnings not to fire into the United States, but, ignoring low land, elevated their rifles and machine guns and fired into the city of Douglas.

On a little knoll where a Mexican cemetery is located, the rebels had a fine view of the city. The federal fire directed at this point skimmed the ground and whizzed into the air, but did not cause any damage. The whole section of the city between 5th street and the international line was under fire continually, and the citizens under there took refuge in a deep ditch.

American Family Driven Out.

Shots from the federal batteries, which had a position a little to the southwest of Agua Prieta, crashed through the 5th street home of Robert Rae, chief auditor for the Copper Queen Consolidated Mining Company, the local Phelps-Dodge corporation.

Mr. Rae and his family were driven out. The American soldiers exposed to the fire behaved with their customary courage and coolness. At 9 o'clock they were ordered to retreat. The machine guns were moved forward and fired until hot, then the soldiers would close the machine guns and the firing would cease.

After a moment's rest they would be moved forward and the firing would continue. At 10 o'clock the federalists rushed another column of men to this point. They were ordered to retreat. The machine guns were moved forward and fired until hot, then the soldiers would close the machine guns and the firing would cease.

At 10:30 a.m. the firing ceased. The rebels still held every position which they occupied at the beginning of the battle. The trenches were being dug a new line of trenches which they were to dig along the international line, running diagonally to the American boundary.

The Firing Ceases.

DIAZ CALLS VOLUNTEERS

TO SIX MONTHS' SERVICE

Revolution Has Spread With Striking Rapidly, Especially in the South.

MEXICO CITY, April 17.—A general call for volunteer soldiers to serve for a period of six months was posted in this capital yesterday. The call is made to all citizens between the ages of eighteen and forty-five years who desire to lend their services to the country. The pay offered is one peso (50 cents) a day, besides clothing and equipment. The customary inducement of advancement in rank and pay to those who prove worthy is included. This activity in the war department overshadows the much-talked-of plans for peace. Both Mexicans and Americans in the capital are inclined to believe that the end of the revolution is still far off. The necessity of the call for volunteers has been created not alone by the activity of the revolutionists in the north. Throughout the country, with the exception of a few states, the movement has grown with striking rapidity, especially in the southern part of the republic. The greatest activity has been displayed in the states of Tabasco, Yucatan and Puebla. Last week it was reported that San

PROMINENT AT THE OPENING OF THE D. A. R. CONFERENCE

President Taft, Address of Greeting, Mrs. Matthew Scott, Pres. Gen. D. A. R.

With flags flying and banners waving, with bands of trumpets and beating of drums, the Daughters of the American Revolution, on the occasion of the opening of the annual conference of the D. A. R. at the Continental Memorial Hall today to the delegates to the twentieth annual conference.

The attendance almost bulged the walls. The show of Easter hats and gowns was brilliant, but rather darker than usual, as threatening skies promised a continuation of the frail tulle and silks usually in evidence.

The address of the president general was a straight declaration of war. She declared that she had held her peace as long as it was possible. She dramatically asked if the Daughters proposed to longer permit politics to take the place of patriotism. She then declared that it was necessary to reply to some of the "paltry, pitiful, personal" things that had been said during the campaign.

Mrs. Scott said, in part: "Whatever our ages may be as individuals, as Daughters of American Revolution we are barely out of our teens and just entering upon that beautiful springtime of life when we may perhaps justly claim to have attained the years of discretion without having outgrown the vitality and the expectancy, the idealism and the radiant, contagious enthusiasm of youth."

"Therefore it is not as a president general, full of every responsibility, but as a Daughter, full of faith and hope and full of the invincible spiritual vitality of self-forgetful womanhood, that I come before you this morning to speak of our common heritage, our common aims, our common achievements and our common destiny."

"First of all, we are daughters and descendants of those peace-loving patriots who, in the early days of our history, were within our hands, and I want calmly and dispassionately, but very seriously, to invite you to consider with me, not the past, but the future. We have all the opportunities which we feel ought to be ours, but whether we are measuring up to the opportunities which are already ours."

"Unquestionably there are thousands of women in our national society who are every way qualified to fill the positions within our gift with grace, ability, dignity and devotion. And while the vast majority of the individuals of high-minded, loyal-hearted women are elected to official position or to positions of responsibility, we have a number of high-minded, loyal-hearted women who are within our hands, and I want calmly and dispassionately, but very seriously, to invite you to consider with me, not the past, but the future. We have all the opportunities which we feel ought to be ours, but whether we are measuring up to the opportunities which are already ours."
